Josh and Patrick,

Attached are two Complaints filed last week against Mr. Goetsche here in Montana and an acknowledgement of service and waiver of summons for each Complaint that we hope one of you will sign on Mr. Goetsche's behalf and return via email tomorrow (12/30).

Also attached is Kevin Washington's Draft Emergency Motion for Appointment of a Receiver, Draft Brief in Support of Emergency Motion to Appoint a Receiver, Draft Proposed Order Appointing Receiver, Draft Bitcoin Protocol that will be attached as part of the Order Appointing Receiver, Affidavit of Kevin Washington and Affidavit of Richard B. Tabish. We plan to file these documents tomorrow (12/30).

CryptoWatt's Bitcoin mining facility at Butte is a very valuable asset of majority owner Goetsche and minority owner Washington. As recounted in the attached papers, the facility has been shut down since Matt's arrest because he is not available to pay the expenses and the facility's power contract is in arrears. The facility's value decreases drastically if the power contract is not brought into good standing-and the power contract will be lost completely if it is not brought into good standing in the very near future. Appointment of a receiver is the best opportunity to obtain a power contract, bring the facility back into operation and preserve this valuable asset. But, time is critical for maintaining the power contract-we must get a receiver appointed as soon as possible.

I am providing these draft documents for your review in hopes that Mr. Goetsche and you as his counsel will agree to the appointment of a receiver and we can advise the Court that the Emergency motion will not be contested by Mr. Goetsche.

Please review these attached documents at your earliest convenience and give me a call to discuss.

Best Regards,  
Kris
